

We, the undersigned, ask you to revoke the Executive Order and issue the necessary instructions to:

- Allow DAB, an independent, experienced, and credible central bank to call forward funds from Afghanistan's national reserves in US banks. The DAB should have limited, conditional, and internationally monitored access to a minimum of \$150 million, on a monthly basis, to hold auctions, counter inflation and maintain the stability of the *afghani*, the local currency.
- Provide the necessary assurances to relevant authorities so that recently printed *afghanis* can be sent to the DAB forthwith thereby enabling the liquidity essential for a functioning economy.

Unless urgent action is taken to release the Afghan reserves, the misery of the people will only get worse with catastrophic consequences in Afghanistan and beyond.

Yours sincerely,

Antonio Donini
on behalf of United Against Inhumanity (UAI)
